OPTAIN

Optimal Strategies to Retain
Water and Nutrients

Welcome to OPTAIN Newsletters

A periodical summary of all the news revolving around the OPTAIN project.

To find out more about what you can expect next, check our [website](#).

Healthy and resilient catchments – OPTAIN Summer School

21 students attended OPTAIN Summer School, organized by Global Water Partnership Central and Eastern Europe as one of the OPTAIN partners. Held in Prague, Czechia, the event expanded their knowledge to better implement natural, small, and underutilized water retention measures.

Discover OPTAIN through its new promo video

🕒 3 MIN READ

See the beauty of OPTAIN's adventure in this promotional video and find out how the project aims to boost the knowledge and understanding of natural small water retention measures.

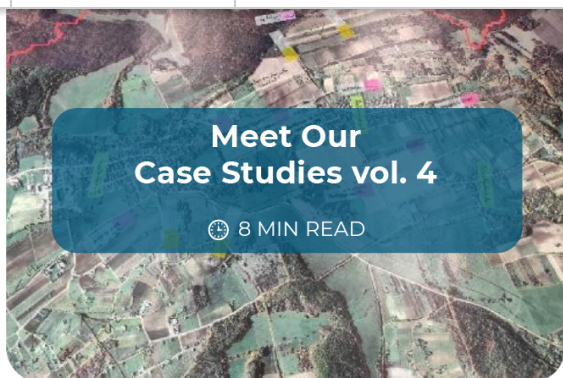

Policy briefs are now ready!

🕒 3 MIN READ

We asked our stakeholders about challenges and solutions in legislation affecting water, nutrient and economic issues. The key messages were then put into our new policy briefs.

Meet Our Case Studies vol. 4

🕒 8 MIN READ

Up next in our journey, we introduce the Upper Zgłowiączka (Poland) and Csorsza (Hungary) catchments, each with their unique features and interesting water-related challenges to tackle.

4th WaterAgri Stakeholder Workshop Recap

🕒 2 MIN READ

The latest WATERAGRI Stakeholder Consultation Workshop was full of fun and games. The main aim was to present a serious game – AgriLemma.
