OPTAIN

Optimal Strategies to Retain
Water and Nutrients

Welcome to OPTAIN Newsletters

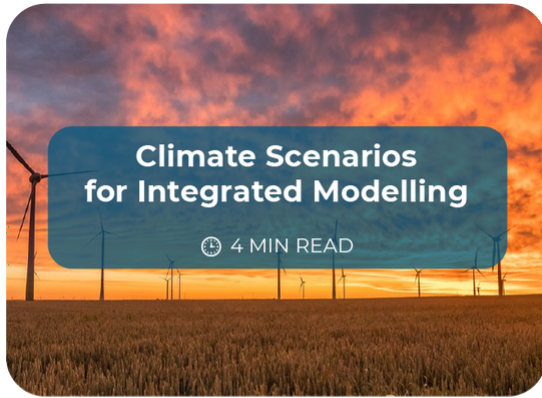

A periodical summary of all the news revolving around the OPTAIN project.
To find out more about what you can expect next, check our [website](#).

Our second entry in this series will take us from the far reaches of Sweden all the way to our southernmost case study area in sunny Italy.

OPTAIN project partners successfully conveyed live during COVID time to discuss the most important matters, and outlook of their actions.

Climate Scenarios for Integrated Modelling

🕒 4 MIN READ

We simulated future temperature, precipitation and solar radiation conditions to provide climate model simulation data for all case studies as an input to the OPTAIN modelling approaches.

OPTAIN Learning Environment to be launched soon

🕒 1 MIN READ

A new on-line platform is being created to serve as a knowledge hub supporting the project's efforts to bring NSWRM closer to its peers.
